11/4/2013

Dear Parents, Guardian & Staff Members:

The Healthy Schools Act of 2000 (as amended by Assembly Bill 2865, Chapter 865, and Statutes of 2006) requires all California school districts and child day care centers to notify parents and guardians of pesticides that they expect will be applied during the upcoming year. We here at Bishop Indian Head Start have adopted this policy and want to notify you that the following attached copy of pesticides will be used at Bishop Indian Head Start pre-school. If any parent, guardian or staff member individual would like to be notified in writing when the sprayings will be done during the school year, we must have in writing from you, to post on a register at Bishop Indian Head Start.

Bishop Indian Head Start will post warning signs 48 hours before spraying and 72 hours after the application, and to where the application area will be applied. Bishop Indian Head Start shall maintain records of all pesticides used at the site for 4 years and records will be available upon public request. You can find more information regarding these pesticides and pesticide use reduction at the Department of Pesticide Regulation's School IPM Web site at:

<http://www.schoolipm.info>

If you have any questions, please contact:
